WILL IT CURE ME?

That's the personal question a woman asks herself when she reads of the cures of womanly diseases by the use of Dr. Pierce's Favorite Prescription.

Why shouldn't it cure her?

Is it a complicated case? Thousands of such cases have been cured by "Favorite Prescription." Is it a condition which local doctors have declared incurable? Among the hundreds of thousands of sick women cured by the use of Dr. Pierce's Favorite Prescription there are a great many who were pronounced incurable by local doctors. Wonders have been worked by "Favorite Prescription" in the cure of irregularity, weakening drains, inflammation, ulceration and female weakness. It always helps. It almost always cures.

"I commenced taking your medicine, 'Favorite Prescription,' nearly a year ago for chronic inflammation of womb, and can truly say it is the only thing that ever did me any good," writes Mrs. L. C. Wagner, of 125 Edwin Street, Toronto, Ontario, Canada. "I could not walk any distance before using it. After taking six bottles of your 'Favorite Prescription' I find I can walk without difficulty and am greatly benefited in general health. Would advise all suffering women to use Dr. Pierce's medicine."

Dr. Pierce's Pleasant Pellets — These are the Original Little Liver Pills, first put up over 40 years ago, by old Dr. R. V. Pierce. They've been much imitated but never equaled. Smallest, easiest to take and best. They're tiny, sugar-coated, anti-bilious granules, a compound of refined and *concentrated* vegetable extracts. Without disturbance or trouble, constipation, indigestion, bilious attacks, sick and bilious headaches, and all derangements of the liver, stomach, and bowels are prevented, relieved, and cured. *Permanently* cured, too. By their mild and natural action, these little Pellets gently lead the system into natural ways again. Their influence lasts.

A WOMAN TO BE PRETTY

Must Have Luxuriant and Glossy Hair, No Matter What Color.

The finest contour of a female face, the sweetest smile of a female mouth, loses something if the head is crowned with scant hair. Scant and falling hair, it is now known, is caused by a parasite that burrows into the scalp to the root of the hair, where it saps the vitality. The little white scales the germ throws up in burrowing are called dandruff. To cure dandruff permanently, then, and to stop falling hair, that germ must be killed. Newbro's Herpicide, an entirely new result of the chemical laboratory, destroys the dandruff germ, and, of course, stops the falling hair, and prevents baldness. Sold by leading druggists. Send 10c. in stamps for sample to The Herpicide Co., Detroit Mich.

A CRITICAL MOMENT.

Wonderfully dramatic were the circumstances at the store building in the navy yard at Portsmouth, N. H., Tuesday, when M. Witte came from the secret conference room, in which peace was decided upon, and made the announcement to his secretaries. Upon the word he was to utter to them depended, perhaps, the immediate fate of a hundred thousand lives. Every preparation had been made at St. Petersburg and at the front to continue the war. The military party was determined and Linevitch was to try conclusions with Oyama.

If a rupture had come, the signal was to be given to Linevitch, and an imperial manifesto, already prepared, would have been issued, proclaiming to the Russian people the impossibility of accepting the conditions asked by Japan and calling upon the Russian people to support the Czar and the government in its decision not to pay tribute to the foe. Neither M. Witte nor any member of the Russian mission believed it possible that Baron Komura, by giving way upon all disputed points, would place it in the power of the Russian plenipotentiaries, acting within their instructions, to conclude peace. Every preparation for departure had been made. The Russians had not only packed their trunks, but a special train had been engaged to take the party to New York.

M. Witte went to the navy yard without hope that his adversaries would accept the ultimatum given by the Czar. His secretaries knew his decision, and it can be imagined with what anxiety they awaited in the adjoining room the result of the secret conference. A code had been arranged to cover the contingency of a rupture, and if the fatal words were uttered when M. Witte emerged from the room, one of the secretaries was to go hastily to the private telephone, which connected directly with the Russian headquarters, announce the ruptnre, which was to be cabled instantly to St. Petersburg and flashed along to Manchuria as the signal for Linevitch to attack.

The phrase agreed upon was a conventional one. For almost an hour the secretaries waited, their nerves at high tension. Suddenly the door was thrown open and M. Witte stepped out. His face was flushed. He seemed to be restraining himself as he advanced. The secretaries held their breath until suddenly he stopped. Instead of words that might mean death to those far away on the battle-field of Manchuria, which they expected, he exclaimed: "Gospoda, mir." (Gentlemen, peace.)

The secretaries could hardly credit their senses. Then, suddenly, they realized the great victory their chief had won, and impelled by a single impulse, they hastened forward. M. Witte held out his arms. Mr. Korostovetz was the first to reach the chief, whom they all adore. He threw himself into M. Witte's arms, and embraced and kissed him on both cheeks after the Russian fashion. Then, in turn, M. Witte embraced and gave the kiss of peace to M. Nabouktoff and Mr. Plancon. All were overpowered with emotion.

In the midst of the preparations that had been made at St. Petersburg for continuing the war, which included not only plans for an immediate attack by Linevitch and the issue of an imperial manifesto, but orders for new mobilizations, the stunning effect to M. Witte's announcement to the Emperor that he had agreed upon terms of peace can be imagined, and will help to explain the coldness with which it was received by the official world, and consternation i tcaused in the ranks of the "war party."

THE EFFECT IN JAPAN.

K. Nakamura, a Japanese journalist, was asked at New Castle, N. H., yesterday to discuss the situation which confronts the political leaders of Japan, in view of the impending ratification of a treaty of peace with Russia in which Japan has made concessions which are disapproved by such a large number of the Mikado's subjects.

"The situation," said Mr. Nakamura, "is very interesting and threatens a crisis in Japan. The present Katsura Cabinet was formed in 1902, after the downfall of the Ito Cabinet, backed by the Marquis Yamagata, and, therefore, it can be said that the real power is the Marquis Ito, whose followers--Count Katsura, Barons Sone, Kiyoura and Terauchi—are the members of the Cabinet, Baron Komura being, perhaps, the only nonpolitician member of the Cabinet. The Cabinet which made the successful Anglo-Japanese alliance and the Russo-Japanese war is the Katsura Cabinet, which is considered to be the most successful Cabinet since the promulgation of the constitution by the Mikado.

"Now, when there came a question of selecting peace envoys to negotiate a treaty of peace with Russian envoys in this country the Premier Katsura, a man of genius and cleverness, advised the Emperor to appoint Marquis Ito, who has the confidence of the Mikado, with a hope of avoiding the responsibility of an anticipated failure or an unfavorable treaty of peace. Marquis Ito would have accepted the Mikado's appointment, but his faithful followers earnestly appealed to him not to commit this blunder. So Premier Katsura at last decided to send Baron Komura.

"If not for the Mikado's order, it is certain that Baron Komura would have carried on his own plan, which does not necessarily mean a rupture of the negotiations; but he was sandwiched between his own Cabinet and the board of elder statesmen, and had to yield to the latter against his own and the whole nation's will.

"While the terms of peace are entirely unsatisfactory to Japan, we must submit to the Mikado's order with honor and a spirit of chivalary toward our former enemy, and we must indorse Baron Komura's brave conduct in yielding to the instructions from Tokio.

"It may yet be premature to predict a resignation of the conservative Cabinet, but there is no doubt that the whole nation is angry over the terms of peace, which seem to be unreasonably moderate and dishonorable in Japan's eyes, as they do even to outsiders. There must be some demonstration in the Japanese Parliament, and I am afraid that they will oppose in any form bills presented for new appropriations and may demand a decrease of the nation's burdens by cutting taxes and suspending public works.

"The progressive party, under Count Okuma, will have, of course, to play most of his disturbing role in the next session of Parliament. The neutrals will also condemn the treaty, for they, being a commercial element, were earnestly insisting upon an indemnity."

Stabbed in the Back.

B. J. Megginson, superintendent of the Newport News and Old Point Railway Company, was stabbed in the back by C. W. Burkhead, of North Carolina, at Hampton yesterday. Burkhead's bicyle was damaged by a car of the Newport News and Old Point line Tuesday night, and yesterday, when the line superintendent went to the shop where the wheel was being repaired, Burkhead attacked him with a knife, but bystanders prevented his injuring the superintendent. Later the infuriated man stole up behind Mr. Megginson and stabbed him under his left shoulderblade, but the wound will not prove fatal. Burkhead was arrested.

Perfection Mosquito and Fly Canopies.

Why be annoyed by mosquitos and flies when it can be prevented by a very small expense and no trouble?

We call special attention to the fact that the "Perfection" 5-coil canopy springs have been THOROUGHLY TESTED in tension, action, power and endurance, and found that they will lift any grade new net to a perpendicular position against the head board, and will also undergo the strain of being fastened down, day and night, continuously for many months without showing signs of weakness, when properly adjusted. They are small in diameter; noiseless in operation; look neat and pretty; are not clumsy nor in the way; are strong and durable, and the most perfect canopy springs ever put on the American market.

Made in all sizes and can be adjusted to either metal or wood beds.

Have us put one up for you, and after one week's trial if not entirely satisfactory we will take it down and refund your money.

ALEXANDRIA GAZETTE AND VIRGINIA ADVERTISER.

THURSDAY EVENING, AUG. 31, 1905.

THE HALL of the municipal building in Manila was crowded yesterday with natives who are striving for the independence of the Philippines, who had been invited by Governor General Wright to air their grievances against the insular and federal governments before the visiting Congressmen. The meeting was presided over by Senator Scott. The speakers urged the immediate independence of the islands and met most reasonably every argument used against them by the Americans. One speaker said that one reason advanced by Americans for not granting the Filipinos independence was their lack of a common language. He referred to their dialects and compared the Filipinos with their multitude of tribal tongues with the three languages spoken in Great Britain—English, Scotch and Irish, saying that nation met with difficulties in the matter of language. All the speakers were subjected to volleys of questions by Messrs. Newlands, Warren, Hepburn, Grosvenor, Payne and Cooper, which were promptly and sensibly answered by the Filipinos who in many instances turned the points of the questions against the American questioners. Still the latter declare that it is not yet time for Philippine independence—the same opinion the Spaniards held for three hundred years!

PRESIDENT ROOSEVELT'S star is still in the ascendant, and at the present time he is being congratulated by the representatives of all civilized countries for the part he has taken in the proceedings which have culminated in peace between Russia and Japan. As a cotemporary says, "the Holy father at Rome thanks God for the President's splendid courage; Kaiser Wilhelm and King Edward shower him with congratulations, and the former says the whole of mankind will unite in thanking him for his untiring and now happily successful efforts to restore peace to the world." The career of Theodore Roosevelt is phenomenal. The country has at times produced men who have achieved a meteor-like recognition, but the President's case has been wonderful from the start. He had attained notoriety before he entered the White House, and fortune seems to have placed him in a position and under circumstanees destined to give him universal fame and the plandits of those at the head of church and State. If he was the moving spirit which brought the unhappy war to a close, he deserves the respect of all lovers of peace.

THE LAST session of the conference with the natives who are striving for the independence of the Philippine Islands, held at Manila, developed the fact, according to a consensus of opinion among the United States Congressmen present, that the Filipinos are altogether unfit for immediate independence. One of the chief reasons given by the Americans was that "it developed during the session that the two principal 'agitators' had been under sentence for various crimes." Why, this is the veriest folly. The American Congressmen should remember that three United States Senators have recently been convicted of "various crimes," but such little things as these do not prevent the rest of the people from being fit for independence.

THE COOL WAVE which is now refreshing this section is doubtless the echo of a serious elemental disturbance in parts of Pennsylvania last night, when a tornado left destruction in its wake. At Carbondale the wind was especially destructive. Striking the yards of the Delaware & Hudson Railroad, it picked box cars and cabooses from the track, and, lifting them high in the air, carried them some distance. Houses and barns were torn from their foundations and in some instances utterly destroyed. A residence was demolished, but, miraculous as it may seem, the inmates escaped injury. The damage extended over a large area.

THE official announcement made at Boston yesterday that Governor Douglas, of Massachusetts, will adhere to his resolution not to be a candidate for re-election, in spite of messages and personal urgent solicitations to run again from various parts of the State, will be received with regret by democrats throughout the country. Governor Douglas is the first democratic executive that Massachusetts has had for a long time, but he has given that State a clean administration and opened the eyes of his people to republican misrule. May his successor be equally as good a democrat.

THE claret punch consumed at Mrs. Grace Taggart's cotillon given while she was residing at Fort Leavenworth, Kansas, cost $800. This amazing fact was brought out during the cross-examination of Mrs. Taggart by Major Taggart's attorney at yesterday's session of the celebrated divorce trial in Wooster, Ohio. Experienced punch mixers figure that 140 gallons of punch can be made for $300. If these figures are correct, all hats should be taken off in honor of the drinking capacity of the army officers that attended Mrs. Taggart's cotillon.

From Washington.

[Correspondence of the Alexandria Gazette.]

Washington, D. C., August 31.

The Insular Bureau of the War Department today received a cable message from Manila to the effect that the Taft party sailed at noon on the transport Logan for Hong Kong. There the party will divide, Secretary Taft and those returning to the United States sailing at noon, September 6, on the steamship Korea. No stop will be made on return voyage at Honolulu, and mail addressed to members of the party there will be held at San Francisco. A rush trip will be made across the Pacific. Miss Alice Roosevelt and the people making the Peking journey will continue from Hong Kong on the Logan as far as Tien Tsin. It is understood that they will remain in China until about the fifteenth of September. Miss Roosevelt's plans are as yet unknown. Some of the party will make a further tour of Japan, and some also will return via Europe.

In a few days all the members of the commission appointed by the President to investigate the business methods of the various departments will have returned to the city and the compilation of data carried on during the summer will be concluded and other lines of investigation taken up. Plans for a number of reforms are being laid. Among these is one for the closer co-operation of the departments. Efforts will be made to secure greater publicity in the departments. It is believed a recommendation will be made, for instance, that announcements of all resignations or removals from the service be posted conspicuously and the cause set forth to all.

United States Consul General Rogers at Shanghai, China, reported to the State Department by cable this morning that the boycott situation in that city was greatly improved. The conclusion of peace between Russia and Japan will, it is thought, do much to break the boycott. The opening up to the commerce of the world of the ports in Manchuria will cause such an influx into China of American-made goods that it will be next to impossible, it is declared, for the Chinese merchants participating in the boycott to ignore American products.

Mr. Korea, the Nicaraguan Minister to this city, called at the State Department this morning for the purpose of talking over the case of Mr. Albers, the American citizen imprisoned in Nicaragua, with acting Secretary of State Adee. Mr. Korea has no more information on the subject than has the State Department, but he assured Mr. Adee that Mr. Albers would receive a fair and impartial trial for his alleged offenses. The matter of the cancellation by the Nicaraguan government of the exequator of United States Consul Donaldson at Managua, for interference in the Albers case was a subject of serious discussion between Minister Korea and acting Secretary Adee. Mr. Korea has been notified by his government that a full report on the case would be sent him soon and the State Department has directed United States Minister Merry also to make a report. It is believed at the State Department that the matter may be amicable settled between the two governments.

Mrs. Robert Castleberg, of this city, has received a letter from her husband, whose strange disappearance caused considerable anxiety. The letter was mailed from South Dakota and indicated that he was bound for the Pacific coast.

To Boycott White People.

A young Moro girl most deliberately tried to poison a white baby with carbolic acid in Montgomery Ala., a day or two ago. It was the nursemaid's second attempt to kill Rev. John A. Rece's infant boy, and was thwarted by the merest chance. The ritual of a lodge of a negro secret society was found on the street in Montgomery, which proved that many colored people are organized to abstain from working for whites in any capacity. The order forbids negro girls to go out to domestic service, and threatens to dishonor all girls who "associate" with the whites by refusing to grant them its highest degrees. The remarkable document found in Montgomery pledged negroes not "to raise their hands to help the whites" and urges those who take the oath to bring others into the society. It urges upon old colored people especially that they forget the respect for the whites that came to them from slavery days and that they accept the teachings of the order. Whether or not by this society's influence it is impossible to secure negro labor in some sections of Alabama, and to save the cotton crop in some places, refined and educated white women, the planters' wives and daughters, have been compelled to go into the fields and pick the cotton. It is estimated that many thousands of bales will be lost because of insufficient labor to cultivate and harvest the crop.

The Mosby Reunion.

The reunion of Mosby's men was held at Fredericksburg today. In the morning Mayor Wallace made the address of welcome and Mr. Joseph Bryan, of Richmond, responded. A luncheon was given at the opera house at 1 o'clock. The public exercises were held at the court house at 3 o'clock, Col. E. D. Cole presiding. Addresses were made by Congressman John Lamb, Judge J. T. Goolrick, Mr. Joseph Bryan, Major J. Horace Lacy and Commander J. W. Foster.

Justice Stafford, of the Supreme Court of the District of Columbia, today denied the petition for injunction filed by the New York Institute of Physicians and Surgeons against the Postoffice Department to prevent the latter from carrying into effect the fraud order recently issued barring the concern from the use of the mails. The order will now be operative. The plaintiffs allege that it will destroy a business of $100,000 a year.

The Government Printing Office.

President Roosevelt probably will not make public the findings of the Keep commission on its recent investigation of the government printing office before his return from Oyster Bay to Washington, as there are some questions connected with the management of the establishment which he wishes to look into further.

In connection with the main point of the inquiry, the contract made by Gen. Palmer, the Public Printer, for the purchase of seventy-two Lanston typesetting machines, involving an expenditure of $275,000, the President himself yesterday authorized the statement that the contract would be allowed to stand. He was induced to make this announcement by the report which had reached him that rumors about the nature of the report of the Keep commission were being used for stock-jobbing purposes, and he determined to put an end to this at once.

It will be recalled that after it had been decided by Gen. Palmer to purchase the Lanston machines, and a contract with the Lanston Company had been entered into, representatives of the company manufacturing the Mergenthaler typesetting machine made representations to the President that they had not been treated fairly. Intimations were made openly that some officials of the government printing office were interested in the Lanston contract.

These reports reached the President, and he promptly ordered that the contract for the Lanston machines be held up pending an investigation. The Keep commission, named by the President to make a general investigation of the business methods of the various government departments, had only recently been created, and the President directed it to proceed immediately with a thorough inquiry into the affairs of the government printing office, with special reference to the contract for the Lanston machines.

The report of the commission on its inquiry was submitted to President Roosevelt nearly two weeks ago by Assistant Secretary Keep, the chairman.

Its recommendations, except as to the Lanston contract, are not made public, but it is known that the findings reflect seriously on the situation in the big printery.

The whole establishment is said to be divided into cliques, and it is understood that the findings of the commission deal with this situation positively.

Mr. Beach Retires.

District Attorney Morgan H. Beach, of the District of Colombia, who tendered his resignation to the President some months ago, retired from office at the close of business today. On September 1 his successor, D. W. Baker, will take the oath of office.

When Mr. Beach arrived at his office yesterday morning he found upon his desk a large basket of American Beauty roses, with a card attached congratulating him upon the success he has attained in the administration of the affairs of the office. On the card was inscribed:

August 30—From many members of the Washington bar, who heartily congratulate you upon your successful administration of the office of the United States Attorney for the District of Columbia.

Mr. Baker, the new District Attorney, will be sworn in on tomorrow morning at 10 o'clock. Mr. Beach will leave for a vacation in Virginia. It is rumored about the City Hall that he will receive a special appointment to prosecute the cotton scandal cases, the evidence in which he has worked up during the past few months.

After Train Wreckers.

A vigorous search with the aid of bloodhounds is being prosecuted for those responsible for the wreck of a Southern Railway train near South Boston Tuesday morning. It has been shown that the track was tampered with and it is strange that no lives were not lost. The engineer, Charles D. Farmer, of Richmond, was painfully hurt and his engine was demolished. The train was running 40 miles an hour, and when it left the track the engineer was thrown far out into an adjacent cornfield. A crowbar and other tools found near the wreck seemed to show that a deliberate attempt had been made to wreck the train in order to steal the valuables of the dead and dying passengers. If those responsible for the wreck are caught efforts will be made to have the death penalty inflicted upon them.

As he arose the intruder fired his revolver, the bullet entering Mr. Spencer's mouth. Immediately after the shooting Mr. Spencer was removed to the Danville General Hospital, and on August 16 went to Baltimore.

George L. Christian, formerly judge of the Richmond Hustings Court, has declined to serve on the committee of fifty authorized by the mass-meeting in the Capitol Square to endeavor to secure honest elections in Richmond. In a letter to the chairman Judge Christian says that the courts are now well organized and honest and that the day for vigilance committees is past. Such a movement, he says, reflects on the courts and is calculated to create dissension in the democratic party. Mr. James N. Boyd and Mr. L. Z. Morris have also declined to serve on the committee.

Royal Arcanum.

The first session of the special meeting of the Supreme Council of the Royal Arcanum to hear protests from delegates representing a number of states relative to the recent advance in assessment rates made at the Atlantic City meeting was held at Put-in-Bay, Ohio, yesterday after noon.

After the preliminary business a large number of petitions and remonstrances regarding the new rates were presented, some favoring the new rates, the majority protesting against them. The sentiment of the meeting was to give a public hearing to the opposing delegates, and a meeting for this purpose was called for yesterday evening.

Some members of the Supreme Council claim that the resolutions condemning the new rates were hastily adopted, and do not really express the views of the grand councils and members they represent. The protesting delegates, however, state that they find the delegates from various sections unanimous in their stand against the new rates, and they believe their situation is stronger than at any previous time.

Protesting delegates representing Massachusetts, New York, Rhode Island, Connecticut, Ohio, Pennsylvania, Indiana, Missouri, Illinois and New Jersey have organized and adopted resolutions advocating that the Supreme Council's action as to rates be rescinded, and if it fails the protesting delegates will call a meeting to determine on future action.

Today's Telegraphic News

Preparing the Draft.

Portsmouth, N. H., Aug 31.—More time is being required in the preparation of the rough draft of the treaty of peace than was at first thought would be necessary, although the counsellors of Russia and Japan and the three secretaries from each mission who are aiding them are laboring all day and far into the night. It is announced that the draft may not be ready to submit to the envoys themselves before Tuesday. The work of preparing the draft of the treaty is tedious and exacting. Each side has two secretaries to assist the counsellors.

Aside from the general desire of the envoys to complete their work here and sail for home is the fact that official New Hampshire is manifesting a strong determination not only to have the signing of the treaty a ceremonious event, with President Roosevelt as an invited guest, but wishes the pleasure of entertaining the envoys for four days in the White Mountains.

To this end Senator Burnham has gone to Oyster Bay to talk with President Roosevelt to the subjects of signing of the treaty and the trip to the White Mountains.

Five articles of the treaty, including the first three of these subjects, territorial integrity of China, and the evacuation of Manchuria have been agreed upon. When the first complete draft is finished the envoys will be called to pass upon it. When a draft is finally made to the satisfaction of the envoys it will be transferred to parchment in French and English and be signed. It cannot be told at this time how many articles the treaty will contain.

Portsmouth, N. H., Aug. 31.—The startling fact has just been discovered that neither the Czar of Russia nor the Emperor of Japan has yet approved the peace agreement of the envoys, which was reached at Tuesday's session of the conference.

This official sanction must be obtained before the protocol of that meeting can be signed or final action taken upon the treaty, which is now being drafted, In other words, although the plenipotentiaries of the belligerent nations have, as they expressed it, "met in full accord on all differences," their work will come to naught unless these messages of approval are received.

This makes clear the apparent nervousness of the members of the two commissions, and corroborates the information which has come to the Publishers' Press through a highly important and confidential source that M. Witte has been notified of the existence of a widespread belief in court circles in Russia that General Linievitch should be permitted to try issue with Field Marshal Oyama near Harbin before peace terms are formally determined upon.

Peace has been fully decided upon in Portsmouth, but the issue of war or peace was still hanging in the balance at noon today in St. Petersburg and Tokio.

M. Witte keeps closely confined to his apartments. It was understood that one of the first messages of congratulation he received was from the Czar. This is now found to be an error. He has received no message thus far from his government in any manner commending the result of his labors here, although it has been announced that the modification by Japan of her demands was made upon the laying down of the Czar's ultimatum by M. Witte.

There is no concealing the fact that nervousness exists. While it is believed that the two governments will respond shortly, maybe before today draws to a close, the danger of delay in approving and signing the proctocol of Tuesday's peace agreement meeting is fully recognized.

M. Witte is grave but hopeful that his war enemies may not triumph. It emphasizes the utterance of the President at Oyster Bay, yesterday, when he remarked: "Whistle softly, we are getting into thin timber, but we are not yet out of the woods."

It also adds a greater significance to M. Witte's message of notification to the Czar, when he concluded: "We have applied to the execution of your orders, all our intelligence, and our Russian hearts. We beg your majesty mercifully to forgive that which we have been unable to do more."

A significant feature in this connection is the postponement of today's meeting of the treaty drafters from 9.30 a. m. to 3 p. m.

All information vouchsafed is that this action was taken upon the request of the Japanese counsellor.

This may or may not have connection with the delay in hearing from the Czar and Mikado.

It would be going too far to say that all work of the treaty has been suspended pending these advices, but postponement at this time, when every energy of the envoys to finish their labors and depart, is significant.

Portsmouth, N. H., Aug. 31.—Korostovitez, the Russian spokesman, in discussing the lack of confirmatory advices from the Czar, said: "We have heard nothing. There is nothing critical anticipated because we have been informed that the Japanese envoys have not yet received any message of approval from their emperor."

M. Witte could not be communicated with up to 12:30 o'clock. He denied himself to all callers.

Portsmouth, N. H, Aug. 31.—M. Witte announced that he had not yet received a message from the Czar confirming the action of the Russian envoys in agreeing upon peace terms.

It is officially announced from the Japanese headquarters that the peace treaty will not be made public until after it has been ratified by both emperors of Russia and Japan.

Yellow Fever.

New Orleans, Aug. 31.—The number of deaths yesterday from yellow fever was only four, the smallest since August 20. There were only forty-six new cases and thus the situation continues to grow brighter.

There are now about sixty cases under treatment at Kenner, and Hanson City. Seven new cases and one death were reported from the country in yesterday's final.

New Orleans Aug. 31.—At 12 o'clock today, 14 new cases of yellow fever and four deaths from the disease were reported.

Natchez, Miss., Aug. 31.—Dr. Juan Guiteras, the yellow fever expert, has pronounced the two suspicious cases at Vicksburg, to be yellow fever.

Conditions in Russia.

St. Petersburg, Aug. 31.—The correspondent of the Publishers' Press was able today to secure an interview with one of the most prominent officials in Russia on the subject of the peace settlement and future developments in Russia. He said: "Russia needs every penny she can get to restore her financial balance. The outside world had no idea how terrible the strain of the war has been upon the Russian exchequer. Agarian disorders are assuming enormous proportions and the starvation of millions of peasants is imminent. Russia will have to spend very large sums in relief work to prevent an uprising during the coming winter. President Roosevelt's initiative for peace deserves the heartfelt thanks of all moderate Russians. But for him the war would probably have continued and anarchy would would have broken out in the interior this winter. The talk about peace being deplored in influential Russian circles is nonsense. Peace has come at the most opportune time when we were nearing the end of our resources and when, as known in the innermost circles of the Czar's advisers, General Linevitch's position was hopeless.

Quiet at Sagamore Hill.

Oyster Bay, N. Y., Aug 31.—A calm settled over Sagamore Hill and the executive offices in the village today. The flood of telegrams of congratulation has ceased to deluge the telegraphic force at the offices and letters containing the same sort of felicitations, only expressed at greater length, are taking their place upon Secretary Loeb's desk. Mr. Loeb this morning said that there was no liklihood of President Roosevelt going to Portsmouth or anywhere else to witness the signing of the peace treaty. "The treaty will be signed wherever the envoys elect," said Mr. Loeb. "It is not necessary for the President to attend the ceremony and he will not. The President is going to stay right here in Oyster Bay until he goes back to Washington for good on September 30th."

President Roosevelt today received congratulatory dispatches from the Emperor Nicholas, the Emperor Francis Joseph, John D. Rockefeller, Vice President Fairbanks and others.

Peace Temporary Measure?

St. Petersburg, Aug. 31.—A sensation has been caused here by an article which appears in the Novoe Vremya today which was written by M. Souverin, in which he declares that Russia accepted the peace terms offered by Japan only as a temporary measure. Russia, M. Souverin declares, will take a rest and will then "travel again."

The Novoe Vremya also prints an attack upon President Roosevelt. It says it is not true that the President sympathizes with Russia, because he always favors Japan. The Svet, on the other hand, says that President Roosevelt is the fountain of humanity. Prince Ouhktomsky, editor of Viedomosti, in an editorial article, describes the President as a "giant."

Lions at Large.

Oporto, Portugal, Aug. 31.—Advices from Pombal say that the inhabitants of that city have been thrown into a panic by the escape of a family of lions, which was on exhibition at a fair, to the hills surrounding the town, where the ferocious animals are still at large. A fair was in progress and the family of lions consisting of a lion, lioness and a cub was one of the attractions. The animals turned on their keeper, who was killed. The lions then escaped from their cage and bolted into the crowd which had assembled at the spot. Many persons were injured by the animals, while others were hurt in the panic which ensued as the people scattered in their haste to find a place of safety. The animals reached the hills and have not yet been captured or killed.

O'Loughlin Defeated.

Rockland, Me., Aug. 31.—Jack O'Loughlin, of Toledo, who has fought a series of successful battles on the Pacific coast, and who was regarded by his manager, Martin Flaherty, as a coming man in the heavy weight class, lasted two and one half rounds with Charley Saghey, of Lowell, in this city last night. The westerner appeared cool and deliberate in the first round, but Saghey landed almost at will, and the storm of blows rained upon his face soon began to have a telling effect and in the third O'Loughlin went out.

France Satisfied.

Paris, Aug. 31.—It is officially announced that the government is not fully satisfied with the release of the Algerian Mudjek Bouzain, who was arrested recently in Morocco, whose seizure by the Moroccan authorities led to France's sending an ultimatum to the Sultan. While Bouzaine has been set at liberty, France will insist that the Sultan shall apologize for his arrest, and that an indemnity shall be paid for the indignity to which he was subjected.

Woman Crushed to Death.

Rochester, N. Y., Aug. 31.—Mrs. Margaret Robertson was crushed to death last night at her home, 15 Howell street. Discovery of the fatality was made by the woman's son, who found his mother's body under a refrigerator at the bottom of the stairs. It is supposed that the woman fell and, catching at the ice box to save herself, pulled the heavy receptacle over upon her.

Charged with Poisoning Husbands.

Launch of the Vermont.

Quincy, Mass., Aug. 31.—In the presence of a large company of invited guests including Governors Bell and Douglas and a number of government officials, the big battleship Vermont was successfully launched at the yard of the Fore River Shipbuilding Company here at 10:53 o'clock this morning. The new craft was christened by Miss Jennie Bell, the younger daughter of Charles J. Bell, the Governor of Vermont. Miss Bell was attended by Miss Mary Morse and Miss Virginia Perry, two school girl friends, as maids of honor. The Marine Band, which played a patriotic air as the Vermont, decorated with flags and the international signal, was dipped into the water. After the launch the guests were entertained at lunch.

The Vermont is one of the largest and most powerful battleships yet laid down for the navy. The general dimensions are as follows: Length of load water line, 450 feet; breadth at load line, 76-12 feet, displacement 16,000 tons; mean draught to bottom of keel, 24½ feet; gross draught, full load, about 25¾ feet; total bunker capacity 2,000 tons. In the main battery there will be four 12-inch breech-loading rifles, eight eight inch breech loading rifles, twelve 7-inch breech loading rifles. Secondary battery: Twelve 3-inch fourteen pounder rapid fire guns; twelve three pounder and semi-automatic guns, two three-inch field pieces, two machine guns, calibre 30, and six automatic guns, calibre 30. The hull is protected at the water line by a complete belt of armor nine feet three inches wide, having a maximum thickness of 11 inches. The engines will be of the vertical twin screw two cylinder triple expansion type of a combined horsepower of 16,500.

Chinese Eastern Railroad.

Portsmouth, N. H., Aug. 31.—"It is ridiculous." Mr. Pokotilof, the Russian Minister to China, this morning thus characterized the statement sent out by a press association that Russia would have to pay about $75,000,000 to China for her interest in the Chinese Eastern Railroad as a result of the peace agreement here. Mr. Pokotoloff is the recognized authority on the subject of this railway. It was he who established the Russo-China Bank, which financed the construction of the road. "The Chinese Eastern Railroad was built with Russian money," said Mr. Pokotilof to the Publishers' Press representative. "China has an interest in it for which it must be remunerated by Russia. She has no money in it. Her only interest is that it runs through Chinese territory."

The Moroccan Affairs.

Paris, Aug. 31.—The note in reply to the note of the German government which was delivered last week in relation to the proposed international conference on Moroccan affairs, has been completed and will be handed to Prince von Radolin, the German Ambassador, this evening.

In this note, France accepts the proposal to hold the conference at the earliest possible date and this settles the last difficulty in relation to the Moroccan question.

New York Stock Market.

New York, Aug. 31.—There was no significance in the movement of prices on the character of the stock market during the first hour, but a dribbling in of selling orders from European sources was large enough in the aggregate to cause moderate declines in many of the active issues. The room generally took the bear side, but shifted whenever there was any indication of a rally, and it was said the traders were playing on both sides.

Tournament at Marshall Hall.

More than 5,000 persons witnessed the tournament at Marshall Hall, in Charles county, yesterday. The steamer Charles Macalester made four trips during the day, stopping both ways at Alexandria, Fort Washington and Mt. Vernon to take on excursionists. On the morning trip the boat carried 1,500 passengers and on the second trip 2,000. More than 1,000 residents of Charles, Prince George's and Montgomery counties, in Maryland, and of Alexandria, Fairfax, Clarke and the adjoining counties of Virginia were in attendance. The Maryland visitors came by the county roads, nearly 500 of their teams being drawn up around the tilting course and lined along the fences. J. B. O'Shaughnessey, of Fairfax, was herald, and Geo. W. Ferguson, of Alexandria county, was one of the judges. John H. Klohr, of Roslyn, Baltimore county, carried off the honors. At the coronation and ball last night Mr. Klohr crowned Miss Emily Teresa Mudd, of Bel Alton, Charles county, as Queen of Love and Beauty. W. L. Clark, Virginia, named Miss Venable, of Washington, as first maid of honor and "Jack" S. Blandford, of Prince George's county, who won third prize, named Miss Sower, of Washington, as second maid of honor. Lucien D. Love, of Maryland, who won first prize at River View last Tuesday, won fourth prize yesterday, William L. Harron, of Washington, won fifth prize.

That Alexandria Supper.

The democrats of Alexandria set their brethren in other sections of Virginia a most excellent example, Tuesday night, when they held a jollification meeting, which they termed a "love feast." The supper was arraigned for by friends of Senator Martin, who had voted for him in the primary, but every democrat in the city was invited to be present, and a large portion of the gathering was composed of men who had supported Governor Montague. The reports of the supper indicate that it was a most enjoyable event, at which harmony and good fellowship prevailed to a marked degree.

Democrats throughout the State should follow the wise course indicated by those of Alexandria. The primary election is passed and its results are unalterable Whatever of heartburnings it left should be obliterated as soon as possible.

The Times-Dispatch expressed the opinion yesterday that there was no likelihood of the republicans carrying Virginia at any time in the near future. Such a contingency will never arise if the democrats of the State manifest everywhere the fraternal spirit shown by those of Alexandria. And the campaign was waged about as warmly there as in any town in Virginia.—[Richmond Times-Dispatch.

Preparing for Improvements.

The Alexandria Fertilizer and Chemical Company is at work on the improvements on the property recently acquired by it on the east side of Union street, between Queen and Princess. The dock adjoining the same has been dredged and the piles for the new pier have arrived, as well as the iron work for the bridge which is to extend across Union street to the other buildings used by the company. The old brick structure on the east is to be metamophosed and used in conjunction with the receipt and shipmen of fertilizer.

The season is now on and for several weeks all the Alexandria plants will be kept busy. This industry has expanded wonderfully in late years, and from all indications it will continue to do so.

Pleasant Weather.

The weather yesterday and during most of last night was sultry, and this morning there were indications of rain. The heavens, however, soon became clear when a stiff northwesterly breeze set in which lowered the temperature considerably.

Nineteenth years ago tonight a muffled rumbling sound was heard, followed by a fall in temperature. A few seconds later the vibrations of an earthquake were felt, lasting about thirty seconds, which extended over a large portion of the United States. The city of Charleston, S. C., passed through a terrible experience, while people in Alexandria and many other places were more or less terrified.

Submerged in Fertilizer.

Funerals.

The funeral of Chas. H. Jett, whose sudden death occurred late Monday evening, took place this afternoon from the residence, 826 Duke street. Rev. Dr. Fisher, of the Baptist Church, conducted the services.

The funeral of the late James Auld took place from the residence of his brother, Mr. George Auld, in Fairfax county, this morning. The interment was made in the family lot nearby. The services were conducted by Rev. Mr. Landstreet, and the pallbearers were friends of the deceased who lived in the neighborhood.

The funeral of the late Mrs. Fannie E. Hill, widow of Dr. J. C. Hill, took place at noon today from her late home, Mount Wellington, near Accotink, in Fairfax county. The services were conducted by Rev. Everard Meade and the interment was in the family lot near Pohick Church.

A Boom in Pans.

A second-hand dealer in this city yesterday opened an invoice of several hundred tin pans of a variety useful to housekeepers and of a substantial make. They had originally been manufactured for the government, but, for some reason, were not used. The dealers offered them at the inducing price of two for twenty-five cents, and in an incredibly short space of time the stock was materially depleted. The store this morning was besieged by many anxious purchasers, and before noon all the supply had become exhausted. Men, women and children—some from the rural districts—were seen on the streets with a pan against each side, suggestive of the shields of the ancients. It is said that many persons sought policy shops and risked money on the "pan row."

St. Mary's Academy.

Tuesday, September fifth, this prominent educational institution will re-open for its thirty-seventh year of school work in this city. With a corps of experienced and capable teachers and a building commodious and fully equipped with all modern school furnishings, as well as with all that tends to the development of the aesthetic. St. Mary's is prepared to keep up the reputation of the past as a home of culture wherein the young receive not only a thorough, practical and comprehensive English education, but also that moral training and social refinement which can only come from those who, consecrated to the noble work of teaching, love it for the sake of the good that can be done to the precious souls entrusted to their care.

But St. Mary's is not satisfied with being all that she has been in the past; in education more than any where else the tendencies of the age are for progress, and the Sisters of the Holy Cross have ever been progressive. For this reason several of the teachers of St. Mary's Academy attended during the past two months the Summer Institute held at the celebrated institution of learning, St. Mary's Academy, Notre Dame, Indiana. They have returned ready to put into the workings of their school the advanced ideas of the best educators, hence parents desirous of giving their children the highest advantages, need not go outside the city to seek them.

In St. Mary's Academy the common branches as well as the studies of the academic department are imparted according to the most approved methods. The music department, under the direction of teachers of experience and ability, is considered one of the most important in the school. Instruction in vocal music and on the piano, organ, violin and other stringed instruments is imparted with a pains-taking earnestness that soon makes of the youngest professional musicians.

This year the faculty will introduce a special business department where commercial arithmetic, bookkeeping, stenography, typewriting and Palmer method of business writing will be taught.

There will also be a resident physical culture teacher at the school to give the entire student body daily instruction in the all important art of physical development.

Students not in attendance at the school are admitted to the music or business departments, or they may pursue a special course. Miss Price, the teacher of physical culture, will also receive pupils for private instruction in the art.

Parents desirous of information regarding terms and other matters of importance are invited to call or send for a catalogue. The tuition in all the departments is very reasonable.

Dangerous and Uncertain.

For sunburn, tetter and all skin and scalp diseases, DeWitt's Witch Hazel Salve has no equal. It is a certain cure for blind, bleeding, itching and protruding piles. It will draw the fire out of a burn and heal without leaving a scar. Boils, old sores, carbuncles, etc., are quickly cured by the use of the genuine DeWitt's Witch Hazel Salve. Accept no substitute as they are often dangerous and uncertain. Sold by W. F. Creighton & Co., 401 King street.

Infectible Territory.

According to the marine hospital service Alexandria is in what the officials of that service would call infectible territory, so far as yellow fever is concerned. The interstate quarantine regulations require that a person from infected territory shall not be allowed within infectible territory until after the expiration of six days from their departure from infected localities and to permit travel detention camps are provided where persons may spend this period, at the end of which they are given certificates that permit them to go where they will.

The marine hospital officials say that infectible territory for yellow fever may be described as all that part of the United States south of a line drawn from the Atlantic coast through Washington to St. Louis, and from there southwest to El Paso, Texas, with certain excepted portions, which are given by States. The infectible territory in Virginia is that portion of the State lying east and south of a line passing through Charlotte, N. C., Lynchburg, Va., and continued in a northeasterly direction through Charlotteaville and Alexandria, Virginia.

Twenty-nine cases of typhoid fever have been reported in Richmond during August.

Bold Robbery.

A burglary, unique for the daring and success with which it was carried through, took place Tuesday night at "Nirvana," the summer home of Mr. and Mrs. Paul Bonner, at Stamford, Conn. The burglars carried away bodily an 800-pound safe, which held about all of Mrs. Bonner's diamonds, jewels and rare old jewelry, as well as $150 in cash. Mrs. Bonner estimates the value of the stolen jewels at $18,000. She declares that many of the gems have a sentimental value that is incalculable in figures. They include gifts from her late husband, James Joseph Alexander, who was a noted steamship owner, and from his father, who practically owned the Pacific Mail Steamship Company and was its head for many years. Many family jewels and heirlooms of the Alexander family were stolen. Much of this belonged to Jerome Alexander, Mrs. Bonner's son, who is soon to attain his majority, and her daughter, Miss Alexander. The heavy safe containing the jewelry was carried from the second-story hallway of the house The yard was full of dogs, and the docrs of the sleeping rooms were ajar, but the burglars were not detected.

THREE JURORS CURED

Of Cholera Morbus with One Small Bottle of Chamberlain's Colic, Cholera and Diarrhoea Remedy.

Mr. G. W. Fowler of Hightower, Ala., relates an experience he had while serving on a petit jury in a murder case at Edwardsville, county seat of Clebourne county, Alabama. He says: "While there I ate some fresh meat and some souse meat and it gave me cholera morbus in a very severe form. I was never more sick in my life and sent to the drug store for a certain cholera mixture, but the druggist sent me a bottle of Chamberlain's Colic, Cholera and Diarrhoea Remedy instead, saying that he had what I sent for, but that this medicine was so much better he would rather send it to me in the fix I was in. I took one dose of it and was better in five minutes. The second dose cured me entirely. Two fellow jurors were afflicted in the same manner and one twenty-five cent bottle cured the three of us." THURSDAY EVENING, AUG. 31, 1905.

HICKS FOR SEPTEMBER.

The last of August storm disturbances promises to reach into the first day of September. The mercury disturbance extends up to the 5th and the moon will be on the celestial equator and in perigee on the 1st. On and touching Friday, the 1st, no one need be surprised to hear of a crisis in rain, wind, and thunder with probable equinoctial tempests in the south coast regions. These disturbances will probably be prolonged in cloudy, threatening and possibly stormy weather up to and through the 3rd, 4th and 5th. As these are reactionary storm days they will bring a return of stormy conditions, even though a high barometer and fair weather, westerly winds and clearing with cooler weather will touch most parts about the 5th to 7th.

The regular Vulcan storm period, which is central on the 9th, will be felt as early as the 7th or 8th. Falling barometer, change to warmer and increasing cloudiness in western sections. As these conditions advance eastward over the country, storms of wind, rain and thunder will appear in most localities from the 9th to the 11th.

Reactionary storm days are also from the 13th to 15th, therefore we may expect decided storm conditions over these dates. This is a period of probable tidal waves and equinoctial storms in the South. Barometric and other indications of approaching hurricanes in the gulf regions should be noted at this time. Frost in many localities may be reasonably expected, especially northward between the 15th and 19th.

The next storm period is central on the 21st; this is also the central day of the autumnal equinox which will be indicated by falling barometer, rising temperature, threatening storm clouds with rain and thunder, the crisis falling on the 21st to 23rd progressively from the west to the east. High barometer and change to cooler will come in from the northwest behind these storms.

The 27th, 28th and 29th are reactionary storm days. We predict the period embraced between Wednesday, the 27th, and Saturday, the 30th, many wide, sweeping and violent storms in various parts of sea and land.
